

Subhrajyoti Senapati- Novell

Q: Are you satisfied with the company you are placed in or you expected a better company?

A: Its fine

Q: Were there any challenges that you faced in the beginning of the placement season?

A: I had to read Database, Operating Systems and Networking for placement.

Q: Were you rejected by any other company? If yes, what could be the possible reasons?

A: Rejected in DELL in the first (online round), no idea about questions asked from many sub-streams of Computer Science like Operating systems, System Testing.

Q: How many levels were there in the selections procedure of this company?

A: There were basically 2 rounds.

The first one contained 50 MCQs as well as programming question at last.

Then HR interview was done followed by Technical one.

Q: What preparations did you make to get through the written rounds?

A: Read some concepts of Operating Systems, C/C++ and Computer Networks.

Q: What preparations did you make to get through the GD rounds?

A: There was no GD rounds.

Q: What preparations did you make to get through the Interview rounds?

A: Specifically nothing except the theories that I read for online round. I was mostly asked questions from Data Structures and Algorithms as I am strong in that field and didn't have much practical experience in other fields.

Q: Any tips or suggestions for the juniors?

A: It is good to have knowledge in many fields but be good in the field you are really interested in. CG doesn't matter that much but knowledge matters, one should have a complete understanding in the field he/she is working on.

Q: Can you briefly explain your overall experience of the placement season?

A: I was a bit nervous before interviews but everything was fine and I was speaking frankly with the interviewer.
